PRODUCT DESCRIPTION AND KEY ATTRIBUTES

Product description

PPS Mutual Professionals Choice Trauma Insurance provides a lump sum payment in the event the life insured meets the definition of a critical illness, in accordance with the terms and conditions outlined in the Product Disclosure Statement (PDS).

Key attributes

Key attributes of PPS Mutual Professionals Choice Trauma Insurance include:

- The payment of premiums - if premiums are not paid when due, the policy may lapse in which case the policyowner would no longer be covered and cannot make a claim
- Premium structure - premiums can change over time. Premium rates may either be age-based (stepped) or set at the outset (level).
- Life insured must be accepted by PPSM as a Member on application for their first cover.
- Life Insured's Age range at entry 18 to 65 (or older at the insurer's discretion)
- The Life Insured do not have to be resident in Australia but must be an Australian or New Zealand Citizen or a Permanent Resident of Australia
- There may be exclusions and customisable benefits (e.g., child critical illness cover)
- Eligibility criteria - certain consumers may be ineligible for cover if they do not meet the following key eligibility criteria at the time of application, including the
 - health status
 - employment status
 - financial status
 - residency status of the life to be insured.
- Underwriting process - This is a fully-underwritten product. The underwriting process may require additional medical information, including a medical report from the life to be insured's treating doctor(s) and/or medical screening tests. The underwriting process could result in an increase in the price of the product, limitations to the sum insured, special terms and conditions applied to cover, or declining cover. This product is not appropriate for consumers who are unwilling or unable to participate in the underwriting process and related medical requirements.

Product's appropriateness for the target market

Broadly, the target market comprises those who meet the eligibility criteria including the professional occupation eligibility criteria, who have or expect to have outstanding financial commitments that will not be satisfied in the event of their own or another person's (i.e. the life insured's) suffering a critical illness*, and who have a capacity to pay potentially variable premiums on an ongoing basis. As the product pays a lump sum on the life insured suffering a critical illness*, it is therefore likely to meet the needs, or go towards meeting the needs, of those in the target market.

*A reference to critical illness means meeting all the required criteria as set out in the PDS for the specific critical illness.
